

PGR Training Needs Analysis 2022

It is important that you undertake appropriate research training to help you complete your thesis successfully and in good time. We are fully committed to research training that is relevant, useful and which contributes to positive outcomes for you, not least in enhancing your post-thesis employability. The questions on the TNA form link directly to the Vitae Researcher Development Framework.

You should complete the Training Needs Analysis Form following your discussion with your supervisory team. **Please note you must discuss your Training Needs Analysis with your supervisors before submitting this form.**

When you have completed the form, you will be given the option to 'Print or save as pdf'. Click this, and a printing dialog box will load. Change the printer name to 'Save as pdf', then save your responses and upload them to MyPGR. You must upload your TNA to MyPGR within the first 6 weeks of study and then annually thereafter.
